Why Change?

From Branch-Based Operations to People-Centric Collaboration

Challenge	Existing Protocol	AI Solution
• There are so numerous regulatory changes every year, takes time on impact assessment and has risk not covering all the angles	• LRCM tracking, compliance recon on monthly basis.	• Build an AI knowledge repository not only consolidate regulations, but contains product categories and internal policies as well.
• Inconsistent on enquiry responses and written output, cause back & forth emails.	• Team training & E-learning	• Build standard response playbook and refer to the knowledge repository to drive consistent wording, format and tone for payment enquiry.
• NBIA/ Product & System Changes	• SME assess impact on process & systems, prepare UAT test book/ checklist update SOP / user training	• Leverage on AI tools to assess impacts and review UAT test results
• Business request data for regulator survey / product or client review.	• Manually extract data from internal system or reg report	• Leverage on AI to extract raw data from Datamart
